

Employment Opportunity – Engineering Assistant

Organization: Mach85 Inc.

Location: Fredericton, NB

Mach85 is a fast-paced engineering company located in Fredericton, NB that thrives on pushing the envelope in engineering technology. We are looking for an engineering assistant for a four to eight month contract, beginning in September 2018. The primary role of the engineering assistant will be to assist Mach85's engineers at UNB's Ballistic and Mechanical Test Lab. This is a great opportunity to work in a unique and exciting environment. The test lab performs testing for large aerospace and defence clients involving shooting a variety of projectiles from subsonic speeds to hypervelocity speeds up to 8 km/s. The chosen candidate will be exposed to cutting edge engineering technologies. The job will require a mixture of strong analytical skills as well as hands on work. The use of power tools will be required along with the ability to lift at least 20 lbs.

Employment Details

Contract length: 4 to 8 months

Hourly wage: negotiable

Start date: Early September

This is a partially-funded position and the successful candidate must be eligible for the [NRC-IRAP Youth Green Employment Program](#).

All applications must be received via email at info@mach85.com. All applicants are encouraged to apply as early as possible.

We thank all applicants for their interest. Only candidates chosen for an interview will be contacted.
